TRIUMPH TULIPS

Crossings between Single early and Darwin Tulips. Flowering-time just between these two classes. Enormous flowers on tall stems of about 22 inches.

In our opinion Triumph Tulips are absolutely the best garden tulips. They have splendid large flowers on strong and straight stalks and they flower longer than any other race of tulips.

Most of them have excellent forcing qualities too. They force much easier than Darwins and only need about 3 weeks in the hothouse.

EROS

TULIPAS

(SPECIES OR BOTANICAL TULIPS)

The earliest of all tulips!

These are the original „wild tulips“, found in the woods of Turkey and Asia Minor and which were improved and meliorated by the Dutch growers. Excellently suited for small groups or for planting in the rockery. The botanical tulips flower almost two weeks before the early tulips and it may be said that they open the „Tulip season“.

Fosteriana Cantate , brilliant vermilion-red. Enormous large flower. The foliage is most beautiful, broad shiny dark green leaves	6.—
Fosteriana Mad. Lefeber (Red Emperor) , the largest and most beautiful tulip, we have ever seen, resembling a gigantic poppy. The enormous large vermilion-scarlet flowers on high and strong stems give a brilliant effect when planted in groups. Please give this tulip the best place of your garden, protecting it against hard winds, and you will enjoy its beauty for several weeks. When half opened, the flower shows its marvellous butterflyheart, colored deep black, bordered by a yellow edge. Height 22 inches	6.—
Fosteriana Princeps , nearly the same flower as Mad. Lefeber, but the stems are only 12 inches. Therefore for real rockery-work, this variety is often preferred. Moreover it flowers about a fortnight later than Mad. Lefeber. We advise you to order both sorts, so that you can compare them for yourself	6.—
Kaufmanniana „Elliott“ , an improved „Waterlily Tulip“ producing long shaped clear red flowers with white borders. A nice and attractive new variety with a fine orange-yellow centre. Height 15 inches.	6.50

Kaufmanniana „Vivaldi“ , a wonderful new variety, growing about 15 inches high and producing nice and strong flowers of a beautiful orange-red color with yellow border. The green leaves have brown stripes and spots. Highly recommended	6.—
